

Presenting Two Half-day Workshops:

Asbestos Awareness Health Issues In Construction

1 *Who Should Attend . . .*

These workshops are a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 *MIOSHA Training Institute*

MIOSHA Consultation, Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MIOSHA Training Institute introduced a new certification program, effective October 1, 2007. These courses are MTI Level 1 courses. The certification program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses will be offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certification program, log-on to the CET Division website. www.michigan.gov/mti

3 *What You'll Learn . . .*

Asbestos Awareness Workshop 9:00 a.m. - 12:00 p.m. \$60.00

Construction trades routinely renovate and demolish buildings that were built prior to 1981. These construction activities often result in contact with asbestos-containing materials. Asbestos Awareness training is required annually for employees whose work activities may contact asbestos-containing materials (ACM) or presumed asbestos-containing materials (PACM), but do not disturb ACM or PACM during their work activities. This training consists of information regarding asbestos and its various uses and forms. Training also includes information on the health effects associated with asbestos exposure and how employees can protect themselves.

- | | |
|---|--|
| ▶ Asbestos: Its various forms and uses. | ▶ Person who will carry out general responsibilities and locations of management plan or operations of maintenance plan (O & M). |
| ▶ Health effects associated with asbestos exposure. | |
| ▶ Recognition and locations of asbestos containing building materials. | ▶ Respiratory Protection. |
| ▶ Recognition of damaged, deteriorated or delaminated asbestos containing building materials. | |

Health Issues in Construction Workshop 1:00 p.m. - 4:00 p.m. \$60.00

This course will help educate and make the construction manager/worker aware of some of the typical health hazards and their potential health effects that are associated with the construction trade industry. This workshop is designed to give the student an overview of health issues that may be encountered in the construction industry. Topics covered include lead, silica, cadmium, noise, isocyanates and chromium (VI). Students will be able to recognize potential problems with exposures and how to protect themselves with the use of engineering controls and personal protective equipment.

Facilitator

Kristin Osterkamp was appointed to MIOSHA's Consultation Education and Training department in September 2006 and provides service to the SE counties of Michigan for industrial hygiene issues. Kristin has over 12 years of experience as an industrial hygienist and safety professional working for MIOSHA CET, Delphi, Michigan Consolidated Gas Company (Michcon) and MIOSHA enforcement. Prior to joining MIOSHA's CET Division, she worked for Delphi as a Division Industrial Hygienist, with global responsibilities for 25 sites and as a Site Safety Supervisor for Delphi's Engineering Center in Troy, MI. While employed at Delphi she had the opportunity to provide technical industrial hygiene assistance, develop training programs, conduct audits and develop written programs for sites located in the United States, Mexico, Europe and Brazil.

Kristin is a CIH, CSP and has a Masters degree in Occupational Health from the University of Michigan and a B.S. degree in Chemistry from Elmhurst College in Illinois.
